Total New Deaths

5/10/2022

5/23/2022

### Total Cases

• In 2 weeks, from May 10th to May 23rd, there were *more than 8 millions* new cases all over the world. As we can see from the graph on the left, the number rose *from 520 millions to 528 millions*.

• Total new cases and active cases were both fluctuated, but *the downward trend was dominate* in the last few days.

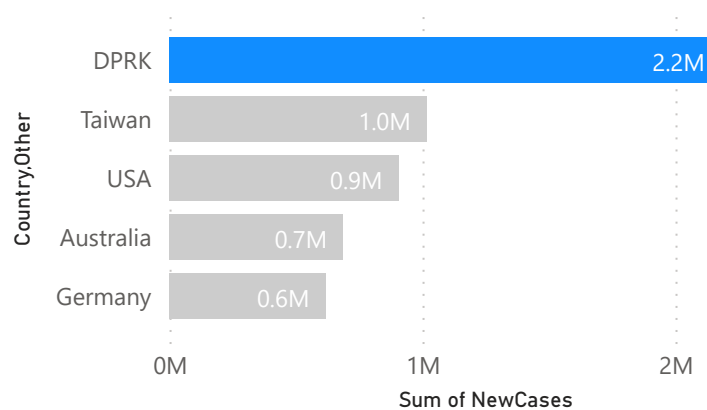

### Total New Cases

### Active Cases

### Top 5 countries have most new cases

### Total new cases across continents

• 5 countries with the most new cases in that period were *Germany, Australia, USA, Taiwan* and especially *DPRK (North Korea)* with *almost 2.2 millions* new cases in 2 weeks

• Apart from the unknowns (countries don't belong to any continents), the number of new cases *Asia and Europe* was *1.8 millions* and *1.7 millions* respectively, which was still worrisome
